

# My Bundle of Joy & Little Scholars Academy Newsletter

Spring 2025

## A Note from our Director

Dear Parents,

As we welcome the arrival of spring, we are filled with excitement and anticipation for all that this new season brings! At our school, we've been busy working on updates to ensure our children have the best possible learning and play environments.

We're thrilled to announce that our Southwest Infant & Toddler Home has a brand-new playroom, specially designed to engage and inspire our youngest learners. We are also doing updates to our Concordia home. In addition, our Younger Preschool location is undergoing a significant update after 20 years of service, ensuring that our preschoolers continue to have a nurturing and dynamic space to grow, explore, and learn.

As we embrace the new year ahead, we want to take a moment to send our warmest well wishes to all of our families. We are incredibly grateful for your continued support and partnership in helping our community thrive. We are excited for the opportunities the new year holds, and we look forward to all the wonderful moments ahead with your children.

With heartfelt thanks and anticipation,

Monet L Halton

Director & Owner

## Important Dates:

3/9/25 - Daylight Savings

3/28/25 – Provider Project Day -  
**CLOSED**

## Date Night Referral

Our greatest acknowledgment is our parents referring their friends and family to us!

If you know someone interested, I'd love to invite them for a tour! The first step is for them to submit an online enrollment application, which can be found [here](#).

For any person that you refer that signs with us before the end of April, You will receive a \$200 gift card to a restaurant in Portland and a bottle of wine as a thank you!

## Spring Plant Safety

Oregon's diverse range of flowers, like Calla lilies, tulips, and daffodils, can be really tempting for kids to pick and explore. It's great to teach them to appreciate nature from a safe distance.

Educating about the potential toxicity of certain plants can help prevent any accidental ingestion or skin contact.

Maybe even turning it into a fun learning experience for kids, where they can identify flowers and learn about their safe and unsafe properties, would make it more engaging.

If you have questions about these plants, or any other plants in and around your home, call the Poison Hotline at [1-800-222-1222](tel:1-800-222-1222).

## What is Provider Project Day?

Provider Project Day gives us an opportunity to refresh our spaces with some painting, organizing & general clean-up projects.

We will be power washing the outdoor structures to ensure they are clean and safe for our kids to use. We will also be adding fresh bark & cedar chips to keep the area comfortable and safe for outdoor play in the summertime.

## February

### Kid Birthdays

- 2/1 Victoria
- 2/7 Milo
- 2/8 Quincy
- 2/10 Walter
- 2/19 Logan
- 2/19 Lulu
- 2/25 Marshall
- 2/28 Olivia

## March

### Kid Birthdays

- 3/2 Leo M.
- 3/7 T'eferi
- 3/8 Barrett
- 3/9 George
- 3/17 Sachin
- 3/18 Fox
- 3/25 Gabriella
- 3/25 Naima
- 3/25 Frida
- 3/26 Lucent
- 

### Teacher Birthdays

- 3/8 Jesse S. - JLP Lead
- 3/28 Manny -SW infant

## April

### Kid Birthdays

- 4/17 Bixby
- 4/22 Holden
- 4/25 Frankie
- 4/25 Lenni

### Teacher Birthdays

- 4/15 Jessie G. – Piedmont
